The second game of the series with Findlay yesterday afternoon ended in a defeat for the Wiscelings, after a very pretty gyme which took ten innings to decide the vantage. McDougal was in the box for the home team and had he received good support Findlay would have been defeated, as they only secured seven hits to twelve by the Wheeling nine. The astifortunate error of White in the tenth lest the game to Wheeling, He threw wild to Kocfe, letting Groy go, to second. Then Ireland's sacrifice advanced the runner to third and he scored on Cook's single to

The Findlays are made up of nine in-dividuals who perhaps can lav claim to being ball players, but they have missed their vocation; they would ap-pear to better advantage in a nursery, pear to better attracting in a nursery, where they would make a very realistic baby show. Every one of the one thousand spectators of yesterday's game can testify to this. This infantile demonstration took place in the fifth inning while Wheeling was at the bat. Kerr had struck out and Gans dropped the ball. Kerr started for first base with Gans who had nicked un the ball. with Gaus, who had picked up the ball, at his heels. Gaus touched the runner at his nees. Cans touched the hinder but the hall dropped out of his hands and the unipire declared Kerrysafe. Crotty, who was on third, scored. The Findlays took this occasion to show their baby-like characteristics, and left the diamond, entered their cab

and the manoest, entered their cap and threatened to leave the grounds. The gate was closed and nobody allowed to leave, while White tried to reason with the Findlays. He finally agreed to everything the visitors claimed, and play was resumed. Notwithstanding this, the Wheeling management at once protested the came by telegraph to this, the Wheeling management at once protested the game by telegraph to President Zigler and it is believed that the game will ultimately be awarded to Wheeling. McDougal, who let Canton down with two hits on Wednosday, was in the box for Wheeling yesterday, and hut for errors by the locals would have downed the Gas Gity crowd, as only seven safe hits were made. Pastorius, the Barnesville twirler whose strawberry tinted hair was the but: of the jokes of the crowd, pitched for the visitors, and although he was hit safely twelve times he kept them scattered in every inning except the fourth when Wheeling got four safe ones and scored the only two runs they made. Pastorius' underhand ball was very deceptive and the locals fanned out on several occasions in vain fanned out on several occasions in vain efforts to connect with the sphere. This shorts to connect with the sphere. This ball is similar to that formerly used by "Billy" Rhines when he first pitched for Cincinnati foar seasons ago.

players lost them the game. In the first inning Regan was put out at the plate after he made an elegant three bagger, simply because he was not properly coached. This was repeated two or three times during the game.

Findlay scored one run in the first inning, McDougal being touched up for three hits. After Grey was retired Ireland hit for a single and scored on Derby's safe hit. With a man on first McDougal struck out Gans. Findlay scored again in the third inning. After two were out Brandenberg made a single and scored on Crotty's failure to handle Derby's infield hit. McDougal again did good work, striking out Gans the second time when a hit meant a run.

Kane singled, but Kerr went out to Grey in centre, who was putting up an elegant outfield game. White, the next elegant outfield game. White, the next man up, made a two-bagger, scoring Kane. Prince got free passage to first and White scored on Keele's timely single. McDongal retired the side by go-ing out from Pastorius to Derby.

ple. McDongal retired the side by going out from Pastorius to Derby.

No more runs were made until the tenth inning, though Wheeling got very near a score on two or three occasions, and would have won the game, but for the stupid basermining. In the tenth firey sent a grounder to short, which White threw wildly to Keele, and when the ball was back in the diamond Gray was safe on second. Ireland sacrificed sending Grey to third, and on Cooke's clean hit he scored the winning run. The score:

MRS. DICKINSON'S TRUTH

Any Woman Should be Glad to Learn It.

AND PROFIT BY IT.

The Blight That Comes to so Many Women Explained-A Way Shown by Which it Can be Avolded.

No woman in America has given greater attention to the allments and sufferings of women than Mary Lowe Dickinson, the popular writer and magazine contributor. She has frequently uttered words of warning and advice to women, but never with so impressive an effect as in a recent address, when

ehe said:
"Without health the beautiful woman she said:
"Without health the beautiful woman ceases to be beautiful, and education and training are of little avail if she has to pass her life a helpless victim of sickness and weakness. We do not know half the truth about this, for three-fourths of the sufferers do not like to tell. For every hysterical woman who makes everybody about her informed of her sufferings, there are a dozen who drag their own troubles dumbly and bravely into their graves. Sickness is a blight that no woman should permit to come over her if she can by any possibility cure it or keep it away. How to secure health is, indeed, one of the first problems for this generation of women. Give us health! is the cry from all the world of women. Give us health! is the cry from all the world of women, the morbid brooding of discontent, the hysterical tantrum, the nervous collapse, the look of gloom from the wells of our eyes."

Every woman must admit the truth of these words. They are spoken straight from the heart. There are

of these words. They are spoken straight from the heart. There are straight from the heart. There are thousands upon thousands of women who feel sick at certain periods, tired out, and who suffer from weaknesses that dectors seem unable to relieve, and the saddlest part of it all is that they might be happy, joyous, flush with health, and attractive to family and friends it they only knew and acted upon the secret of happiness. Most women are healthy and attractive because they preserve the organs that make health. It is true comparatively few know how this is done, but many have ascertained it, and have relied as upon a true friend on that grandest, greatest and most reliable aid to woman in her critical periods, Wargranuest, greatest and most reliable and to woman in her critical periods, War-ner's Safe Cure. Every doctor knows this truth, and hundreds of the most prominent and reliable ladies in Amer-ica have proven its value in their own experiences, and are not only alive, but strong, healthy and happy to-day. There are few women who can afford to ignore these suggestions, few who should fall to avail themselves of the valuable hints they contain.
